wool heritage
Chipping Campden thrived in the 14th and 15th centuries thanks to the wool from the Cotswold Lion, a breed of sheep whose wool was prized across Europe. William Grevel became one of Campden’s (and, by repute, one of England’s) most successful wool merchants and in 1380 he built a house in the High Street (Grevel House) that still stands today. The Woolstaplers Hall on the other side of the High Street, also built in the 14th century, illustrates how Campden had become an important collecting point for fleece later sold to Flemish and Italian clothiers.

events & festivals
World-class Music and Literature Festivals and the Made in the Cotswolds Festival are the highlights of a thriving cultural scene throughout the year. Campden has been a centre of creative activities since the Arts & Crafts movement and there are a number of traditional and historic activities including Morris Dancing, Robert Dover’s Olympick Games featuring, amongst other sports, the ancient art of shin-kicking followed the next day by the annual Scuttlebrook Wake featuring a procession of the May Queen with decorated floats, followed by country dancing around the maypole.

shopping and eating
Situated along the length of the picturesque high street, you’ll find shops filled with antiques, art, designer brands and goods produced in the Cotswolds, many of which are designed and created right here in Chipping Campden.

Chipping Campden has lots of great places to eat, drink and relax in, whether you’re looking for a Cotswold cream tea, a pub lunch or classic cuisine in a Brasserie you’ll be spoilt for choice.
